

Whether you are creating a new team, or your team organization is changing with integration of new joiners or your team objectives and scope of activities are evolving...

# AZck 'perience of team set up !

Try the **F**

## Workshop objectives

- Defining what the team wants to be - **team drivers, mission & scope of activities.**
- Recognizing each individual's contribution in the team - **expertise, motivation and values.**
- Clarifying the **roles and responsibilities.**
- Identifying the transactional and contextual **forces and barriers to the team achievement.**
- Defining **ground rules & actions** for successful and operational teamwork, including criteria for effective communication, decision making, problem solving, reporting, etc.

### Duration

1 - 2 days

### Team characteristics

Min. 6 – max. 25 participants.  
English or French speaking

## What makes this workshop successful?

- Fun and interactive sessions **encouraging knowledge sharing & raising interest to get to know each other better**
- **Regular debriefing to clarify individual and team expectations, resulting in common understanding of the team mission and of the way the team wants to operate.**
- **A summary report of the workshop outcome**, allowing subsequent review and follow up of the action plans by the team members back to the working place.
